

Death of San Jose Woman
Due to Desire to Get
Insurance.

Husband and Two Brothers
Suspected by the

Sheriff.

SPECIAL DISPATCH TO THE CALL.
SAN JOSE, June 14.—Sheriff Boss used his best endeavors today on the San Filippo murder, but he made little progress beyond the point already reached. The Sheriff spent most of the morning at the San Filippo home, where he made a thorough search of the premises and took a number of measurements. The rather scanty new evidence all tends to corroborate the theory already advanced that Salvatore San Filippo, the husband of the dead woman, is guilty of her murder. The officers, after talking with the brothers of San Filippo, have reached the conclusion that at least two of them knew more about the affair than they are willing to tell.

From their actions the Sheriff is inclined to believe that there was a conspiracy to get rid of Mrs. San Filippo in order to collect an insurance money and two brothers of the suspected husband are involved. The Grand Jury which was impaneled yesterday afternoon will investigate the murder Friday. In the meantime it is probable that habeas corpus will be granted to San Filippo's attorneys to secure his release from custody. It is rumored that another arrest may be made by the Sheriff tomorrow.

The murderers are believed to have had an accomplice, who concealed the shell from which the fatal shot was fired. Deputies have been searching for this important piece of evidence, but while they have found pieces of the wadding fired from the assassin's gun and a shell, they have not been on a tree in line with Mrs. San Filippo's body, the empty shell has not been discovered.

The funeral of Mrs. San Fillippo was held this afternoon at 2 o'clock from the residence on Lincoln street. Interment was in Oak Hill Cemetery.
